

Photo Resize Software

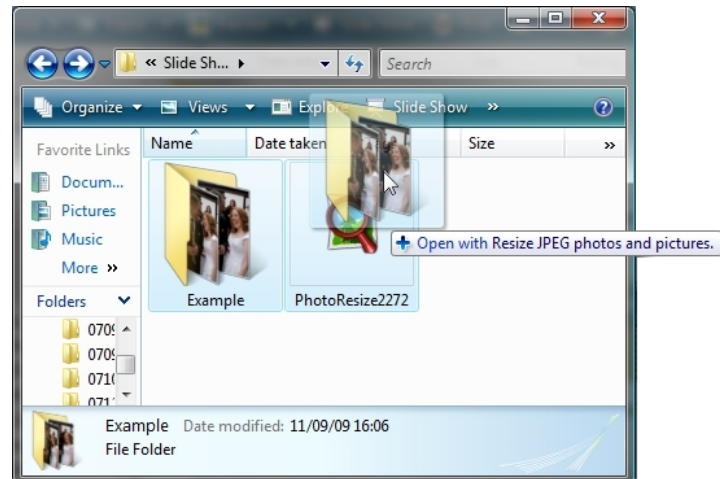

Follow these instructions to compress your pictures ready to upload.

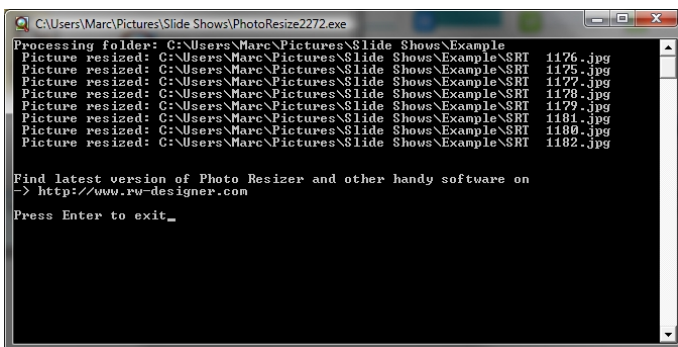

Step 1. Download the software and save the .exe file next to the picture folder you wish to compress.

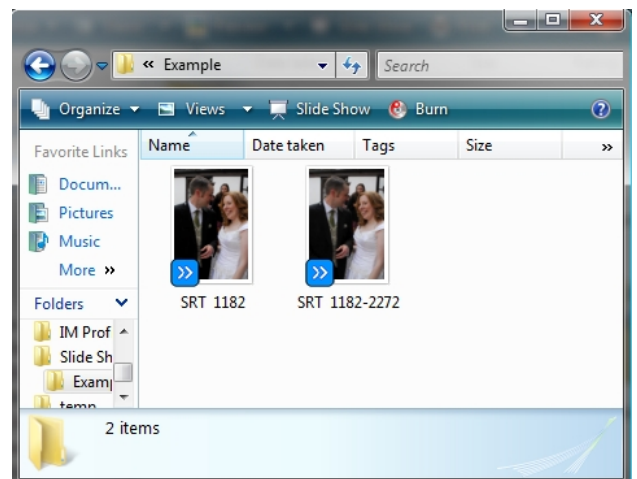

Step 2. Click and drag the picture folder onto the Picture Resize software, then release the click.

Step 3. The window below will appear, it will show each file being processed. Once complete it will say "Press Enter to exit"

Step 4. Now navigate back to your picture folder and you will see every picture now has a duplicate named "Example-2272". These are the compressed files.
